Date: 19/5/2023

Public Notification

This is to notify the general public residing in Phuentsholing Thromde that the Desuung Office Phuentsholing will be conducting a survey of free-roaming (stray) dogs. This survey is being carried out as a part of the Nationwide Accelerated Dog Population Management & Rabies Control Program, which is under the Department of Livestock, MoAL jointly with Desuung Office and Thromde Phuentsholing. The survey will take place from 22nd May 2023 onwards. During this period, we kindly request all pet owners to ensure that their pet dogs are confined within their premises and properly collared for identification purposes. If any pet dogs are found outside of their owners' premises or freely roaming in Thromde areas, penalties will be imposed according to the Livestock Act of Bhutan 2001, Livestock Rules and Regulations of Bhutan 2017, and Livestock (Amendment) Rules and Regulations 2022. The Regional Veterinary Hospital & Epidemiology Center, Phuentsholing will pick any unnotched free roaming (unsterilized) dog sighted/spotted to sterilize, vaccinate & release back to same spot. Thromde kindly requests the cooperation of the general public in achieving and declaring a 100% sterilization and vaccination for free-roaming dogs, in order to prevent rabies in animals.

Issued for strict compliance.

(Dasno Thrompon)
