**Public Notification**

Phuentsholing Thromde is pleased to inform the general public and residents under Thromde that there are two collection points established for collecting plastics on payment systems. One collection point is located at the Integrated Vegetable Market (IVM) in the heart of the town and another one is in the premise of the office of the Waste Firm at the workshop area.

Therefore, Phuentsholing Thromde would like to request that the general public and the residents take all kinds of plastics to the collection points and get payment in return. Further, proper segregation of plastic waste at the individual household level has become critical for the success of reducing plastics going to landfills. Do kindly segregate the plastics and bring them to the collection point during the waste collection time.

Thank you for your attention and cooperation in helping to create a plastic-free environment.
